

A Joint Moses Movers/Bradley Angle Major Move

Augustana Moses Movers took an active role the weekend of April 18th to assist Bradley Angle with a one time major move of numerous apartment units and tenants. Bradley was relocating a number of their safe apartment shelters closer to city center versus having them far removed in the St. John's area nine miles away. Bradley Angle assists women who are victims of domestic violence by providing counseling and safe shelter. After a period of time the women move from Bradley shelters to safe apartments of their own. Moses Movers helps these women by moving apartment furnishings from the Community Warehouse to their new safe apartments. This is a Moses Movers servant ministry that provides outreach and service to the whole metro area. Please contact Wayne Forsgren at whforsgren@yahoo.com if you are interested in this vital ministry.
